

"Grzegorz Kolodko has written an extraordinarily wide-ranging and thought-provoking book. It is easy to disagree with parts of his argument. But the book makes plain not only the scale of the challenges humanity now confronts but the potential for humane, pragmatic and co-operative solutions."

Martin Wolf, Financial Times

"This huge canvas depicting recent developments in economic policy around the world is an outcry against the neoliberalism that dominated policymaking in the last quarter of the 20th century and a hopeful assessment of the departures in economic thinking over the past two decades. Although I do not agree with Kolodko that the neo-liberals have a monopoly on lying and the neo-left are pure in heart, I believe this book is a valuable meditation on the heterodox approach to economic policy now springing up in the world."

Edmund S. Phelps, Nobel Prize Laureate in Economic Sciences

Grzegorz W. Kolodko is one of the most acute observers of the international economy, based on long experience both as a practitioner and as an academic. His writings are always an important starting point for debate and discussion about the political economy of globalization.

Francis Fukuyama, author of *The End of History*

Grzegorz W. Kolodko has been an important player in the transition of the Polish economy and has wide experience and original insights into themes and trends in the international economy. Every reader with an interest in economic development can benefit from reading this new book.

Robert A. Mundell, Nobel Prize Laureate in Economic Sciences

The book is a masterpiece from a thinker and practitioner of economic transition and realworld politics.

Justin Yifu Lin, Chief Economist and Senior Vice President of the World Bank

They used to say in Warsaw of the globetrotting twice Finance Minister and Deputy Prime Minister, "God is everywhere. Kolodko's already been there. A runner who has successfully completed thirty marathons in a dozen countries over the last seven years, Professor Grzegorz W. Kolodko in his latest book *World on the Move* takes us on a breath-taking journey through territories, centuries, and disciplines, including some formerly uncharted, at nerve-wracking speed. One will always be entertained, inspired, and enlightened.

Professor D. Mario Nuti, University of Rome "La Sapienza"
